Module 1

Introspection

Introduction

As we start this course, the first module is designed for creators to dive deep into their purpose, understand the true significance of LinkedIn in their professional journey, and identify their unique niche within the professional landscape.

Finding Your WHY

This section is a reflective exercise to uncover the driving force behind the content creation journey as a creator on LinkedIn. When a creator is clear about their "WHY" specifically, they learn how to stay motivated and resilient in their journey as it is at the forefront of their mind.

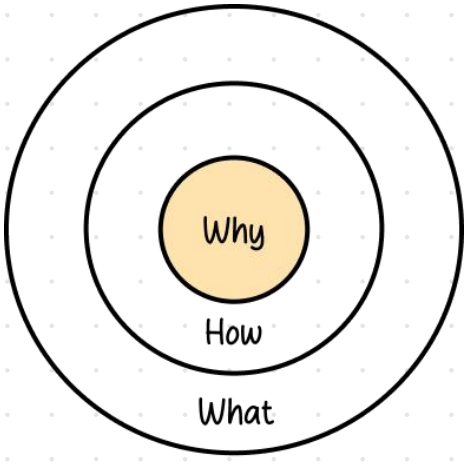

We can derive a very good example of this from the famous Simon Sinek's Golden Circle.

The circle focuses on simple three questions

- What we do?
- How we do what we do?
- Why we do what we do?

To dig more deeply into the Golden Circle, ask:

- What is the aim of creating content on LinkedIn?
- What is the purpose and motivation behind it?
- Why LinkedIn in the first place?

Simon Sinek's Golden Circ;e

These questions give answers ranging from brand values to core target audience. From answers to the above one can conclude that 'WHAT' and 'WHY' are two different things.

WHY, HOW AND WHAT

An inspired creator starts by asking themselves "Why", discover their "How", and then equip

themselves with their "What". As much as the creator needs to discover that, working with the right set of people is greater than anything that they can derive from the job. When a creator gets their "WHY" right, almost everything else falls into place.

Know your WHY because:
"People do not buy what you do, they buy why you do what you do!"

Significance Of Identifying The Niche

Idea Generation

Defining a niche on LinkedIn sparks fresh and relevant content ideas, ensuring your posts resonate with your target audience's interests and needs, ultimately driving engagement and followers.

Shared Emotion

A well-defined niche allows you to connect with your audience on a deeper level, tapping into shared emotions and experiences, and fostering a stronger sense of community and trust.

New Motivation

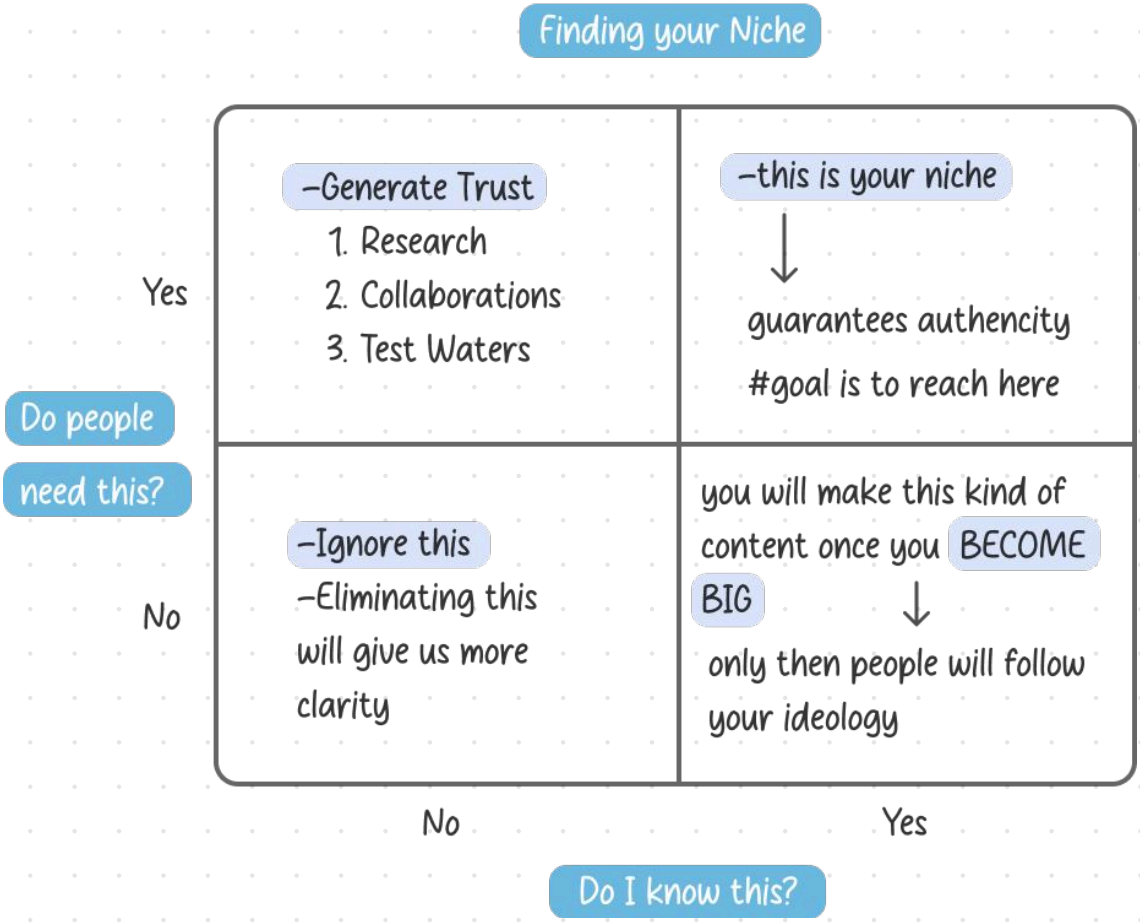

Finding your niche can reignite your passion for creating content, as you become more aligned with your expertise and interests, making it easier to stay consistent and motivated in your LinkedIn content strategy.

Authentic Identity

A niche helps you establish a unique and authentic personal brand on LinkedIn, allowing you to stand out as an expert in your field and attract connections who share your professional values and goals.

Networking Opportunities

Focusing on a niche helps you identify and connect with like-minded professionals, opening doors to valuable networking opportunities, collaborations, and partnerships within your specialized area of expertise.

Ask yourself 2 questions.

- Am I knowledgeable about this niche?
- Do people need this?

Remember – A niche is changeable, it changes as you change as a person. But your WHY remains the same all the time.

Conclusion

In this module, we looked at techniques to introspect and provide a direction to help you get to your WHY and figure out your niche.

Keep Creating!
